End of Waste - definition & interpretation

▶ *Article 3: Criteria for glass cullet*

▶ Glass cullet shall cease to be waste where, upon transfer from the producer to another holder, all of the following conditions are fulfilled:

- ▶ (1) the cullet resulting from the recovery operation complies with the criteria set out in Section 1 of Annex I; **[non-glass compounds]**
- ▶ (2) the waste used as input for the recovery operation complies with the criteria set out in Section 2 of Annex I; **(Type of input glass)**
- ▶ (3) the waste used as input for the recovery operation has been treated in accordance with the criteria set out in Section 3 of Annex I; **(storage)**
- ▶ (4) the producer has satisfied the requirements set out in Articles 4 and 5; **(certification and QA-system)**
- ▶ (5) the glass cullet is destined for the production of glass substances or objects in **re-melting** processes.
